RUSKT2C5

KT2-C5 MULTIZONE CONTROLLER AMPLIFIER SYSTEM KIT MDKC6 KEYPAD

The MCA-C5 is a 8 zone/8 source controller amplifier. 8 zones of audio with adjustable bass/treble/loudness/balance with digital amplifiers providing 40W/channel to zones one through six, 8 source inputs with loop outputs and fixed or variable line outputs per zone, routed IR, built-in IR learning and a pre-programmed IR library, paging and system muting. Internal AM/FM Tuner with RDS (optional source 1). Source linking and zone linking. Front USB and rear RS-232 serial ports, rear Ethernet port, color-coded detachable 14-gauge snap connectors, 12V & home theater triggers. AM and FM antennas included. Controllers are rack-mount 2-unit high, and include rack ears.

RUSKT2C5S

KT2-C5S MULTIZONE CONTROLLER AMPLIFIER SYSTEM KIT SINGLE LINE KEYPAD

The MCA-C5 Multi-zone Controller Amplifier provides eight zones of distributed stereo audio from any of eight sources. The source loop outputs and the addition of up to five additional controllers allow for scalability to 48 zones. A variety of input options have been engineered into the MCA-C5 controller. A built-in internal AM/FM tuner with RDS (Radio Data System) support is optional as source one. An RNET® link using CAT-5e allows for metadata transmission and control of Russound RNET Smart Source components (BGK-1, ST1, VM-1, BSK-1).

RUSKT2C3

KT2-C3 MULTIZONE CONTROLLER AMPLIFIER SYSTEM KIT

The MCA-C3 is a 6 zone/6 source controller amplifier. 6 zones of audio with adjustable bass/treble/loudness/balance with analog amplifiers providing 20W/channel to all 6 zones, 6 source inputs and fixed or variable line outputs for zones 1 and 2, routed IR, built-in IR learning and a preprogrammed IR library, paging (optional source 6) and doorbell muting. Internal AM/FM Tuner with RDS (optional source 1). Source linking and zone linking. Front USB and rear RS-232 serial ports, rear Ethernet port, color-coded detachable 14-gauge snap connectors, 12V and home theater triggers. AM and FM antennas included. Controllers are rack-mount 2-unit high, and Low standby power consumption of less than 1 watt on selected models. Rack ears included.

PRODUCT CATALOG

KT2-C3S MULTIZONE CONTROLLER AMPLIFIER SYSTEM KIT SINGLE LINE KEYPAD

RUSKT2C3S

The MCA-C3 Multi-zone Controller Amplifier provides six zones of distributed stereo audio from any of six sources. The addition of up to five additional controllers allow for scalability to 36 zones. A variety of input options have been engineered into the MCA-C3 controller. A built-in internal AM/FM tuner with RDS (Radio Data System) support is optional as source one. An RNET® link using CAT-5e allows for metadata transmission and control of Russound RNET Smart Source components. (BGK-1, ST1, VM-1, BSK-1) C-Series products are Ethernet enabled devices allowing for communication via RIO (Russound I/O). RIO allows C-Series products to integrate and communicate bi-directionally through Ethernet protocol. Using RIO protocol and Ethernet connectivity through the LAN, the My Russound App controls C-Series products and other Russound Ethernet connected products, like our DMS3.1 Digital Media Streamer.

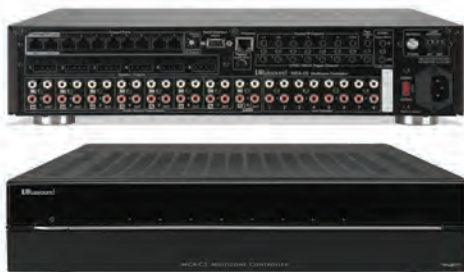

MCA-C3 MULTIZONE CONTROLLER AMPLIFIER CONTROLLER ONLY

RUSMCAC3

The MCA-C3 Multi-zone Controller Amplifier provides six zones of distributed stereo audio from any of six sources. The addition of up to five additional controllers allow for scalability to 36 zones. A variety of input options have been engineered into the MCA-C3 controller. A built-in internal AM/FM tuner with RDS (Radio Data System) support is optional as source one. An RNET® link using CAT-5e allows for metadata transmission and control of Russound RNET Smart Source components. (BGK-1, ST1, VM-1, BSK-1) C-Series products are Ethernet enabled devices allowing for communication via RIO (Russound I/O). RIO allows C-Series products to integrate and communicate bi-directionally through Ethernet protocol. Using RIO protocol and Ethernet connectivity through the LAN, the My Russound App controls C-Series products and other Russound Ethernet connected products, like our DMS3.1 Digital Media Streamer.

MCA-C5 MULTIZONE CONTROLLER AMPLIFIER CONTROLLER ONLY

RUSMCAC5

The MCA-C5 Multi-zone Controller Amplifier provides eight zones of distributed stereo audio from any of eight sources. The source loop outputs and the addition of up to five additional controllers allow for scalability to 48 zones. A variety of input options have been engineered into the MCA-C5 controller. A built-in internal AM/FM tuner with RDS (Radio Data System) support is optional as source one. An RNET® link using CAT-5e allows for metadata transmission and control of Russound RNET Smart Source components (BGK-1, ST1, VM-1, BSK-1).

RUSCAS44K

CAS44K CONTROLLER AMPLIFIER SYSTEM KIT STANDARD KEYPADS

The CAS44 Multiroom Audio Controller Amplifier distributes four stereo sources to four zones. Two controllers can be linked together to support a total of eight zones. Each zone has its own built-in stereo amplifier that provides 20 watts RMS per channel. The system also provides independent control of bass, treble, balance, loudness and volume from the keypad in each zone.

RUSCAS44L

CAS44L CONTROLLER AMPLIFIER SYSTEM KIT LCD KEYPADS

The CAS44 system passes IR commands from the remote control through the keypads to the sources. Two common IR output ports allow connection of infrared emitters or an IR connecting block for device control. To provide easy integration with paging systems, home automation systems and other devices, the CAS44 has a muting trigger input and system trigger output, as well as an RS-232 port with a documented serial protocol. This port can also be used to update the system firmware.

RUSCAA66K

CAA66K CONTROLLER AMPLIFIER KITS STANDARD KEYPADS

6 six zones (40W/zone), front panel programming center, built-in IR learning, rear RS-232 serial port, extensive built-in IR library, controller link in and out, color-coded detachable 14-gauge snap connectors, rack-mount 2-unit high. 6 IR emitters with controller. Rack ears included.

PRODUCT CATALOG

RUSCAA66L

CAA66L CONTROLLER AMPLIFIER KITS LCD KEYPADS

The CAA66 Multiroom Controller-Amplifier distributes six stereo audio sources to six zones. For larger installations, up to six CAA66 controllers can be linked together to accommodate a total of 36 zones. Each zone has its own built-in stereo amplifier providing 20 watts RMS per channel. The system also provides independent bass, treble, balance, loudness and volume control in each zone.

RUSAC560

A-BUS KIT A-C560 6 SOURCE/8 ZONE CONTROLLER

The A-C560 A-BUS Controller Kit provides advanced multiroom audio system features in an installer friendly package. Designed from the engineering and knowhow that introduced RNET, the new A-BUS controller kit offers more power, enhanced source control and easier system programming. The cornerstone of the Controller Kit is the new A-C68 six source, eight-zone multiroom controller. Designed for easy installation and programming, it features a rack-mountable 1U chassis with an internal power supply; an onboard library of IR codes and supports IR learning. The A-C68 also features independent source gain control, source power management and all-zone "party mode". Systems are scalable to support up to six A-C68 controllers linked to make a 48-zone system with six sources. The A-SRC1 system remote is designed exclusively for the A-C68 and provides complete source control.

PRODUCT CATALOG

A-BUS KIT A-S340 1 SOURCE/4 ZONE KIT WITH REMOTE CONTROL

RUSAD340

Includes:

- In-wall Hub (A-H4D)
- 4 Amplified Keypads (A-K3)
- Learning Remote (A-LRC2)
- Dual IR Emitter (1584.1)
- Power Supply (A-PS)

A-BUS KIT A-M341 4 SOURCE/4 ZONE CONTROLLER KIT WITH LOCAL SOURCE INPUT

RUSAM341

Includes:

- Multisource Multizone Hub (A-H484)
- 4 Amplified Keypads (A-K3)
- Learning Remote (A-LRC2)
- Local Source Input (A-LC3)
- 4 IR Emitter (845.1)
- Power Supply (A-PS)

A-BUS KIT A-S341 1 SOURCE/4 ZONE KIT WITH REMOTE CONTROL & LOCAL SOURCE INPUT

RUSAS341

Includes:

- Surface Mount Hub (A-H4)
- 4 Amplified Keypads (A-K3)
- Learning Remote (A-LRC2)
- Local Source Input (A-LC3)
- Dual IR Emitter (1584.1)
- Power Supply (A-PS)

RUSD250LS

D250LS 2-CHANNEL DIGITAL AMPLIFIER

Auto-sensing enables localized speaker override for a connected peripheral, such as a TV or PC. The bridgeable power setting combines channel power for 125W into a single 8-ohm load, rated 50W/channel RMS at 8 ohms. 1U 1/2 rack chassis has three mounting options.

RUSR850MC

R850MC 4 ZONE / 8 CHANNEL MULTIROOM AMPLIFIER

The Rusound R850MC is an 8-channel power amplifier ideal for use as the main amplifier in home theater and distributed audio systems. The eight channels are arranged in pairs to provide amplification for four stereo zones. The R850MC provides an array of useful features such as autosensing line inputs, bridged mono operation, independent zone triggering, bus inputs and multiple speaker outputs per zone to meet a wide variety of applications and configurations. The R850MC is rated at 50 watts per channel into 8 ohms and 80 watts per channel into 4 ohms. With a zone's mode switch set in the Bridge Mono position, both channels in the zone are combined for a mono output of 140 watts into an 8-ohm load. All this power is supplied by two high-output toroidal transformers. Each output channel incorporates robust protection circuitry for safety and reliability under extreme circumstances.

RUSR1250MC

R1250MC 6 ZONE / 12 CHANNEL MULTIROOM AMPLIFIER

The Rusound R1250MC is a 12-channel power amplifier ideal for use as the main amplifier in home theater and distributed audio systems. The 12 channels are arranged in pairs to provide amplification for six stereo zones. The R1250MC provides an array of useful features such as autosensing line inputs, bridged mono operation, independent zone triggering, bus inputs and multiple speaker outputs per zone to meet a wide variety of applications and configurations. The R1250MC is rated at 50 watts per channel into 8 ohms and 80 watts per channel into 4 ohms. With a zone's mode switch set in the Bridge Mono position, both channels in the zone are combined for a mono output of 140 watts into an 8-ohm load. All this power is supplied by three high-output toroidal transformers. Each amplifier output channel includes robust protection circuitry for safety and reliability under extreme circumstances.

PRODUCT CATALOG

X75 2-CHANNEL AMPLIFIER (60/75W)

RUSX75

The X75 is a 2-channel dual source power amplifier with auto source switching. It features two audio line inputs with a loop out to another zone, receiver, or device from Line 2 source. This amplifier can be used for power upgrades in specific zones, for speaker selector or volume control systems. The X75 is a Class A/B amplifier rated at 75 watts per channel into 4 ohms, and 60 watts into 8 ohms. With the Stereo/Bridge Mono switch in Bridge Mono position, both amplifier channels are combined for a higher powered mono output. In Bridge mode the X75 is rated at 160 watts of power into a single 8 ohm load.

X125 2-CHANNEL AMPLIFIER (80/125W)

RUSX125

The X125 is a 2-channel dual source power amplifier with auto-source switching. It features Primary and Secondary audio line inputs with a loop out to another zone, receiver, or device from the secondary source. A speaker-level input can be connected and assigned as either the primary or secondary source. This amplifier can be used for power upgrades in zones for large speaker selector or volume control systems. The X125 is rated at 125 watts per channel into 4 ohms, and 80 watts into 8 ohms. With the Stereo/Bridge Mono switch in the Bridge Mono position, both amplifier channels are combined for a higher powered mono output. In Bridge mode the X125 is rated at 250 watts of power into a single 8 ohm load. The 12V Trigger In/Out allows the amplifier to be activated by other devices or to activate other electronics via a 3.5 mm mini phone plug cable, with 100mA current capability.

PRODUCT CATALOG

BGK1 IBRIDGE DOCK KIT

RUSBGK1

Allows you to use an iPod as a remote source for a Russound RNET or C-Series multiroom audio-video system. Includes a Russound RNET A/V decoder, it provides either RNET or infrared (IR) control of the iPod, depending on the type of system.

PRODUCT CATALOG

BSK-1 BLUETOOTH® SOURCE KIT

The new BSK-1 C-Series Bluetooth Receiver permits Bluetooth enabled devices to stream content to C-Series systems for wireless audio. It is a remotely located Bluetooth receiver, optimized for ideal placement and range by the custom installer. For maximum flexibility it can be configured as either a system source or a local source. The BSK-1 integrates with Russound C-Series multizone systems. System components communicate with each other via the Russound RNET protocol, and components are interconnected using standard CAT-5 cable.

RUSBSK1

DMS-3.1 DIGITAL MEDIA STREAMER / C SERIES

Three independent streaming outputs and one AM/FM tuner with RDS feedback. Streams content from internet radio stations and music service providers. Provides access and playback of digital audio files on LAN connected UPnP/DLNA devices. Supports content playback from connected USB storage devices. Includes: DMS-3.1 Digital Media Streamer, AM Antenna, FM Antenna. Pair rack-mount ears, power supply. Rack-mountable 1U high.

RUSDMS31

ST1 SMART TUNER

The ST1 is a single AM/FM tuner with RDS. Works with C-Series multiroom systems. 6 banks of 6 presets. Half rack width for side by side installation. Built-in 110-240V AC power supply. Pair rack-mount ears included.

RUSST1

PRODUCT CATALOG

TS3 TOUCHSCREEN

RUSTS3ALM, RUSTS3BLK, RUSTS3BONE,
RUSTS3BRO, RUSTS3WHI

The TS3 Touchscreen size and weight are the same as its predecessor, the UNO-TS2. The TS3 works exclusively with C-Series and supports all features. 3.5" Color TFT Screen with improved off axis viewing. Single CAT-5 connectivity and 2-gang workbox mounting. Firmware update capable with streamlined process using a USB flash drive. High contrast, wide angle TFT color display. Available in almond, black, bone, brown and white.

MDK-C6 KEYPAD

RUSMDKC6ALM, RUSMDKC6BLK, RUSMDKC6BNE,
RUSMDKC6BRN, RUSMDKC6WHT

The MDK-C6 Multiline Display Keypad is a wall-mounted, standard fit, double-gang keypad for C-Series Controller Amplifiers. The keypad's gray scale LCD screen displays real-time information including playlist, channel, artist, song title, genre and more when used with Russound Smart Sources. Responsive hard buttons offer access to virtually every system feature and source control function. The buttons and screen brightness are adjustable and can be dimmed at the owner's discretion. Available in almond, black, bone, brown and white.

RUSRSA61

ACCLAIM® THIN BEZEL SERIES RSA-61 6.5" 2-WAY

A great new look to a great speaker line. Russound Acclaim Speakers sport a thin bezel with magnetic grilles.

RUSRSA62

ACCLAIM® THIN BEZEL SERIES RSA-62 6.5" 2-WAY

Like all Russound speakers, they combine acoustic technology with durability and will provide years of musical enjoyment.

RUSRSA63

ACCLAIM® THIN BEZEL SERIES RSA-63 6.5" 2-WAY

The speaker line provides solutions for background music, dedicated music listening and home theater.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

RUSRSF61

ACCLAIM® THIN BEZEL SERIES RSF-61 6.5" 2-WAY

The Acclaim Thin Bezel Series combines premium acoustic materials, with our most advanced drivers to deliver exceptional performance in every application.

RUSRSF61T

ACCLAIM® THIN BEZEL SERIES RSF-61T 6.5" SINGLE POINT STEREO

From background music to spectacular home theater, Acclaim Thin Bezel speakers offer the finest sound around.

RUSRSF62

ACCLAIM® THIN BEZEL SERIES RSF-62 6.5" 2-WAY

Russound Acclaim Thin Bezel Series speakers feature high quality drivers, sophisticated crossover networks, and advanced designs to ensure optimum reproduction in your home, no matter what the source material may be.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

ACCLAIM® THIN BEZEL SERIES RSF-63 6.5" 2-WAY

RUSRSF63

The Acclaim family speakers are engineered for maximum acoustic performance and ease of in-ceiling or in-wall installation.

ACCLAIM® THIN BEZEL SERIES RSF-64 6.5" 2-WAY

RUSRSF64

Acclaim speakers feature big sound in a sleek package to blend with any decor.

PRODUCT CATALOG

ACCLAIM® THIN BEZEL SERIES ROUND GRILLES

RUSRSGR

Round grille for Russound speaker line.

ACCLAIM® THIN BEZEL SERIES SQUARE GRILLES

RUSRSGS

Square grille for Russound speaker line.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

ROUGH-IN SPEAKER BRACKETS

RUSSBC67

Rough-in brackets to make it easier to install in-ceiling and in-wall speakers.

ROUGH-IN SPEAKER BRACKETS 6 PACK

RUSSBC676P

Versatile spans studs and joists spaced from 12" to 24" (30-60 cm). Durable rugged abs ring provides a sturdy template for cutting wallboard and reinforces cut out.

PRODUCT CATALOG

8" OUTBACK ROCK SPEAKERS 2-WAY GRAY GRANITE

RUS5R82G

Designed to look like natural outcroppings of rock, instead of aluminum and plastic speakers that detract from nature's beauty. OutBack Rock Speakers are a practical and virtually indistinguishable addition to any landscape.

8" OUTBACK ROCK SPEAKERS SINGLE POINT GRAY GRANITE

RUS5R82SG

At home in the outdoors, Russound's OutBack Rock Speakers are perfect for patios, pools, porches, decks, and backyards. Relax in a lawn chair or tend your garden while enjoying your favorite tunes in the fresh air.

8" OUTBACK ROCK SPEAKERS 2-WAY WEATHERED

RUS5R82W

OutBack Rock Speakers were environmentally tested to ensure stability and durability in all types of weather and environments. Formed from glass-reinforced resin, the cast enclosure provides a sturdy, waterproof cabinet.

8" OUTBACK ROCK SPEAKERS SINGLE POINT WEATHERED

RUS5R82SW

Durable waterproof enclosure is environmentally tested and optimized for superior outdoor audio performance.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

8" OUTBACK ROCK SPEAKERS 2-WAY SANDSTONE

RUS5R82S

OutBack Rock Speakers won't blow away, rust, melt or crack like ice. Whether you live in the extreme cold of Juneau or the humid heat of Key West, these rugged, unobtrusive speakers will give you years of audio enjoyment.

8" OUTBACK ROCK SPEAKERS SINGLE POINT SANDSTONE

RUS5R82SS

Carefully designed to resemble natural rock, OutBack Rock Speakers blend into your lawn or garden surroundings.

ACCLAIM® 5 SERIES OUTBACK OUTDOOR 2-WAY SPEAKERS WHITE 6.5"

RUS5B65WHI

Drivers with polypropylene cones, rubber surrounds and 1" Teteron dome tweeters deliver full range audio through a wide range of temperatures.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

RUS5B55WHI

ACCLAIM® 5 SERIES OUTBACK OUTDOOR 2-WAY SPEAKERS WHITE 5.25"

Designed to deliver rich, full sound in extreme environments, such as a backyard, patio, deck, or other areas subjected to temperature shifts and high moisture exposure.

RUS5B65SBLK

ACCLAIM® 5 SERIES OUTBACK OUTDOOR SINGLE POINT SPEAKERS, BLACK 6.5"

Weather resistant construction and sealed enclosures for service in extreme conditions. High-efficiency design with greater power handling over previous Russound outdoor speakers.

RUS5B65SWHI

ACCLAIM® 5 SERIES OUTBACK OUTDOOR SINGLE POINT SPEAKERS, WHITE 6.5"

Mounts horizontally, vertically, in corners, on poles, or standing upright. A machined channel in the brackets allows speakers to be suspended by mounting screws for easy installation in hard to access locations.

PRODUCT CATALOG

ACCLAIM® 5 SERIES OUTBACK OUTDOOR 2-WAY SPEAKERS BLACK 5.25"

RUS5B55BLK

Their high-efficiency design and multiple mounting options allow these speakers to be easily installed on a wall, eave, pole, corner or as a freestanding stereo pair.

ACCLAIM® 5 SERIES OUTBACK OUTDOOR 2-WAY SPEAKERS BLACK 6.5"

RUS5B65BLK

Equipped with features to that ensure durability in any outdoor conditions. Sealed enclosures, salt-tested marine grade hardware, and aluminum grilles make the Acclaim 5 Series OutBack speakers weather resistant.

PRODUCT CATALOG

126W VOLUME CONTROL DECORA PLATE

RUSALTX2D

Using Ultra Match technology, the ALTX-2D allows installers to easily match the load of multiple speaker pairs to the amplifier impedance without the need for a speaker selector or other impedance-matching equipment.

126W VOLUME CONTROL STANDARD PLATE

RUSALTX2

Wall mounted 126 watt volume control with a standard wall plate. It connects between the speaker outputs of an amplifier or receiver and a pair of speakers.

126W VOLUME CONTROL BUILT IN IR RECEIVER

RUSALTXWIRI2D

All Rusound volume controls are made with precision autoformers for high fidelity sound, excellent frequency response, no heat buildup, and maximum power transfer from the amplifier to the speakers.

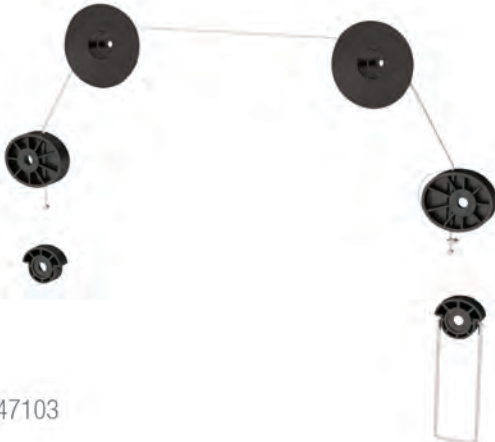

PRODUCT CATALOG

CLR47100

LED FIXED WALL MOUNT 32 TO 60" 110 LBS

Universal mounting pattern. Slide lateral on-wall adjustment (4 inch - 23.6 inch). Durable powder-coated black finish. Max VESA 600x600mm. TV to Wall: .57 inch (14.5mm). Fits 32-60 inch LED HDTV screens. UL, GS Approved.

CLR47103

LOW PROFILE LED FIXED WALL MOUNT UP TO 60" 110 LBS

Free up and improve your home theater setup with a high quality and professional wall mount bracket. Reduce clutter and free up valuable space. Easy cable pulley system allows you to mount the thinnest LED's on the market. Slide lateral on-wall adjustment (23.6 inch - 23.6 inch). Durable powder-coated black finish. TV to Wall: .57 inch (14.5mm). Fits 13- 60 inch LED screens.

CLR47106

TILT SWIVEL TV WALL MOUNT 13 TO 23" 44 LBS

Mount your 13-23 inch LED or LCD on the wall with this professionally designed bracket. This attractive, durable and versatile unit features a full motion design, allowing you to tilt and swivel the display so you can choose exactly where you want it to face. Easy to install. All mounting hardware is included. VESA: 50/75/100mm. Tilt: $\pm 20^\circ$. Swivel: $\pm 180^\circ$.

Lifestyle Products by **GESCAN**

PRODUCT CATALOG

LCD FIXED WALL MOUNT 32 TO 60" 175 LBS

CLR47110

Square holes in the wall bracket for in-wall cable routing. Safety screw system. Integrated bubble level. Universal mounting pattern. Slide lateral on-wall adjustment (4 inch- 23.6 inch). Durable powder-coated black finish. Max VESA 600x600mm. TV to Wall: 1.2 inch. Fits 32-60 inch LCD or Plasma screens. UL, GS Approved.

TILT SWIVEL TV WALL MOUNT 32 TO 63" 165 LBS

CLR47120

Mount your 32-63 inch LED, LCD or Plasma TV. Save space and make the surrounding area look clean, sleek and modern. Solid heavy gauge cold steel construction. Adjustable tilt left-right swing angle: 90° (Typical), 130° (Small TV). VESA: 50/75/100mm. Full extension goes up to 24.80 inches.

HDMI CABLE 3 FEET 1480P FT4 / CL3

CLR556583

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 6 FEET 1480P FT4 / CL3

CLR556586

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 10 FEET 1480P FT4 / CL3

CLR5565810

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 15 FEET 1480P FT4 / CL3

CLR5565815

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 25 FEET 1480P FT4 / CL3

CLR5565825

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 35 FEET 1480P FT4 / CL3

CLR5565835

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

HDMI CABLE 50 FEET 1480P FT4 / CL3

CLR5565850

Blue Ray 3D compliant, premium cable, high speed ethernet, 7.1 channels, 10.2 GBPS. FT4 Rated. Available in 3, 6, 10, 15, 25, 35 & 50 feet lengths.

PRODUCT CATALOG

BALUN HDMI 2 INPUT OVER COAX LONG RUNS

The 40-1096 Remote Controlled, Switchable Dual Input HDMI Balun over Coax provides HDMI signal delivery over a single RG-59 or RG-6 coaxial cable over long distances (up to 328 feet). The transmitter and receiver set are HDMI 1.3b compliant (10.2 Gbps, 36bit Color Depth) and deliver full high-definition (HD) signal transmission supported at a resolution of 1080p. Built in circuitry automatically compensated for different cables lengths and automatically adjusts the signal gain and equalization so no adjustments are required. There is an IR receiver built-in to the receiver so that the included remote control can work locally to switch between HDMI input 1 and 2. For controlling additional source components, additional Baluns can be purchased and cascaded together.

CLR401096

BALUN HDMI 3D CAT6 150FT 1080P

Typical HDMI installation requires cable runs of under 15 feet - however when your are running a centralized AV system or keeping components in other rooms or closets, longer cable runs are required. In these instances, HDMI cable signals attenuate (or lose) signal over long lengths. The 40-1090-3D HDMI Balun will extend the length of your HDMI cables up to 150 feet. Simply connect an HDMI cable to your source and plug it in to the Sender module and connect a second HDMI cable to your HDTV or monitor and plug it into the Receiver module. Then, using inexpensive cat. 5 or cat. 6 cable, connect the Sender and Receiver modules. The balun supports high definition resolutions of 1080p without signal loss.

CLR4010903D

BALUN HDMI 3D CAT5E CAT6 150FT 1080P

The 40-1072M HDMI 1080p 3D Balun/Extender is designed to deliver high-definition (HD) HDMI signal sources over two Cat 5e or Cat 6 UTP cables. HDMI cables are limited in length and will have signal degradation or loss over long distances. Additionally, trying to run HDMI cable inside a wall cavity is risky at best and is virtually impossible in many retrofit projects. By using baluns, you can alleviate both of these issues by connecting inexpensive cat. 5 cable or inexpensive cat. 6 cable (each sold separately) between the transmitter and receiver baluns, you can send a 1080p HDMI signal up to 100 feet from your source audio video component to your HDTV plasma, LCD LED and projection displays. This balun set is HDMI Version 1.3 Compliant and even transmits 3D signals (requires cat6 cable).

CLR401072M

PRODUCT CATALOG

CLR401061HS2

DISTRIBUTION AMP HDMI 1 X 2 3D 1080P

The 40-1061-HS-2 1x2 HDMI 1080p 3D Splitter / Distribution Amplifier allows you to view an HDMI signal coming from a single source on two different HDTV displays or monitors at the same time. Setup takes only seconds - simply connect an HDMI cable from your source component such as a cable/satellite TV receiver or Blu-ray player to the input of the Amplifier and connect two additional HDMI cables to two separate HDTVs or monitors and plug in the splitter; HDMI cables sold separately. This splitter / distribution amplifier supports full HD 1080p as well as 3D signals.

CLR401061HS4

DISTRIBUTION AMP HDMI 1 X 4 3D 1080P

The 40-1061-HS-4 1x4 HDMI 1080p 3D Splitter / Distribution Amplifier allows you to view an HDMI signal coming from a single source on four different HDTV displays or monitors at the same time. Setup takes only seconds - simply connect an HDMI cable from your source component such as a cable/satellite TV receiver or Blu-ray player to the input of the Amplifier and connect up to four additional HDMI cables to up to four separate HDTVs or monitors and plug in the splitter; HDMI cables sold separately. This splitter / distribution amplifier supports full HD 1080p as well as 3D signals.

CLR40281H

CONVERTER COMPONENT TO HDMI

If you have an older cable/satellite box or other high-definition AV source component, you may not have an HDMI output - which is fine until you purchase a brand new HDTV that only has HDMI inputs. The 40-281H Component Video / Analog Audio to HDMI Converter solves that problem by converting your component connection into an HDMI connection. It is also a great solution if you want to reduce the wire clutter in your home theater from the FIVE cables it takes for a component video and analog audio connection, down to ONE HDMI cable that can transfer all of the same video and audio over a single cable.

PRODUCT CATALOG

SWITCH HDMI 4 X 2 MATRIX 3D 1080P

The 40-967M 4x2 3D HDMI Matrix Switcher gives you the ability to enjoy content on two different HDTV's from up to four different high-definition audio/video sources. Connect up to four sources such as your cable/satellite TV receiver, Blu-ray player, PC, XBOX 360 and PS3, and each zone (HDTV) can enjoy content from the same source at the same time or switch between sources. It also solves the problem of having only one HDMI input on your HDTV, since you can access four sources from the switcher, it's just like having four HDMI inputs on your TV. You can easily switch between sources via the manual push button controls or the included IR remote control.

CLR40967M

SWITCH HDMI 3 X 1 WITH REMOTE 3D 1080P

The 40-992 Compact Remote Controlled 3x1 HDMI Switcher will distribute up to three HDMI sources to one HDTV or display monitor. The 3x1 switcher routes high-definition (HD) video up to 1080p and digital audio from three sources into a single HDMI video and audio output. There are so many sources available to connect to such as cable and satellite receivers, XBox 360s, Playstation 3s, Blu-ray players, computers and audio/video receivers. If you have more HDMI devices than you have available inputs on your HDTV, than this is the solution for you. The component can be manually switched or controlled with the included IR remote that is provided, and built-in LED indicator lights let you know which connected component is active.

PRODUCT CATALOG

CLR40998HS

SWITCH HDMI 4 X 1 3D 1080P

4 HDMI Inputs to 1 HDMI. HDMI 3D & HDCP compliant switcher. Manual/IR or RS232 control. Plug and play installation. Maintains input memory after power loss. LED signal selection indicators for inputs. Supports 480P, 720P, 1080i and 1080P resolutions. 5Vdc power supply and IR remote included.

CLR28166KKIT

WALLPLATE SINGLE HDMI HORIZONTAL WHITE DECORA

Easy to install, HDMI connector wall plate terminates in-wall HDMI cables for a professional looking flat panel TV installation. In wall cable is connected to the back of the wall plate. Cables from AV components plug directly into the wall plate for a clean professional installation. Carries a full 1080P signal. Supports 3D, and high speed HDMI.

CLR401076KIT

WALLPLATE BALUN HDMI WITH IR ACCESSORY

This HDMI and IR Balun Kit is the perfect solution for sending an HDMI signal from an AV source component such as a cable/satellite TV receiver, Blu-ray player, PC, XBOX 360 or PS3, to an HDTV or other high-definition display or monitor - and transmitting an IR signal back to that component from the display. Simply connect the audio video signal source (equipped with an HDMI output) to the HDMI transmitter balun input using an HDMI cable (sold separately). Then connect the HDMI transmitter balun to the HDMI receiver balun via dual-runs of Cat 5e cable (also sold separately). Then connect the HDMI output from the HDMI receiver balun to the high-definition display. Lastly plug-in the power supply to the receiver balun. This kit features transmitter and receiver baluns that mount to your wall inside a single gang junction box, providing a clean, professional looking termination point for your HDMI cable run.

CLR35714

COUPLER HDMI MALE TO HDMI FEMALE 90 DEGREE UP

If you have an awkward or difficult location for the HDMI connection on an audio video (AV) high-definition (HD) component or HDTV, this simple adapter might just be the solution. The adapter changes the position of the HDMI cable jack you need to access by 90 degrees, allowing you a different connection point for more convenient access to your HDMI connection.

CLR35714A

COUPLER HDMI MALE TO HDMI FEMALE 270 DEGREE DOWN

The adapter changes the position of the HDMI cable jack you need to access by 270 degrees, allowing you a different connection point for more convenient access to your HDMI connection. It provides the perfect low profile cable connection for getting your HDMI cable into a tight space. It also offers a great way to relieve wear and tear on HDMI ports generally caused by constant plugging and unplugging of HDMI cables or when heavy HDMI cables put extra strain on the ports. It features a compact design and uses gold plated connectors which ensure the highest level of signal quality - so you'll enjoy an easy to install, quality connection.

CLR55644AHS6

COUPLER HDMI MALE TO HDMI FEMALE SWIVEL

Gold-plated, black 55-644A-HS-6 Up-Down Swivel Cable is an audio/video device supported right-angled up - down swivel cable. 6' length.

CLR555023

CABLE 5MM FIBER OPTIC 3 METER TOSLINK TO TOSLINK

The three meter Fiber Optic Toslink Cable with metal housings is your ideal optical cable for a true audio experience in your home theater or entertainment center. This cable is perfect for connecting your components that have a Toslink connection like your Blu-ray player, amplifier, CD player, or digital audio receiver. Constructed with a high quality PVC jacket for maximum durability, this optical Toslink cable delivers a pure digital signal and you will never experience any audio interference. The metal tipped housings provide a durable connection that makes this cable reliable while being cost effective for your high end home entertainment center or dedicated home theater.

CLR555072

CABLE 5MM FIBER OPTIC 2 METER TOSLINK TO TOSLINK

Molded interconnect cable applications include connecting DVD players and recorders to AV receivers. Shielded low loss S-video cable terminated by metal ends and gold connectors.

CLR30333T

COAX JACK 2.1 X 5.5 TO TERMINAL

The Coax Inline Female Connector is the ideal power connector to wire your CCTV or surveillance system directly to your power supply box or any other related application that requires a female 2.1mm coax female power connector. This connector fits 2.1mm male adaptors.

PRODUCT CATALOG

IR COVER

A IR Emitter Cover Shield increases signal reliability to the audio video components you wish to control. The head of IR emitter (sold separately) slides right into the open area of the shield cover and both can be attached (using the pre-installed adhesive) over the IR window of the electronic component you are trying to control. The cover works to block out IR signals coming from other emitters or remote controls that may cause interference with the component you are trying to control. The cover can also secure and hide a visible flashing emitter that may disturbs others. The plastic cover can even be cut to fit a specific area or application.

CLR92150

IR DISTRIBUTION SYSTEM

Keep your audio/video system clean and simple with less wires. When this IR distribution system is installed, you can keep your devices neatly tucked away in a cabinet, closet, or other room and still control it via remote control. This connecting block transfers IR signals from the surface mount receiver to various emitters to control your audio/video devices. One emitter is included, however, up to six emitters can be connected to this repeater. With six emitter outputs, you can control up to six components using single head emitters and up to 12 for dual head emitters. More devices with less emitters means minimal wiring to reduce the chances of tangles and make adding or removing devices much easier.

CLR92160

IR OVER COAX KIT UP TO 300FT

Keep your home theater equipment hidden and out of the way without compromising its operation or integrity. This kit allows you to send IR (infrared) signals from a standard IR remote to other devices over a single coax cable. Whether your equipment is out of sight behind solid, wooden doors or walls, you can be sure they will receive the desired commands. Your IR remote sends a signal to the surface mount receiver, which passes it to the coupler. The coupler then forwards that signal up to 300 feet over a coax cable (sold separately) to the injector. When the injector receives the signal it will forward the command to the IR emitters to control the components. Communications are sent and received in a split second, so you won't experience any delay when you add this injector/coupler to your existing system.

CLR92170KIT

PRODUCT CATALOG

IR FLASHING EMITTER SINGLE

CLR92152

Control your home theater system without it being out in the open. With this IR emitter, you'll be able to store your equipment inside cabinets, keeping them hidden behind doors or even in other rooms. The emitter's small design keeps it discreet but will give you the power to turn on your DVD player, increase the volume on your surround sound, and more.

IR FLASHING EMITTER DUAL

CLR921522

Control your home theater system without it being out in the open. With this IR emitter, you'll be able to store your equipment inside cabinets, keeping them hidden behind doors or even in other rooms. The emitter's small design keeps it discreet but will give you the power to turn on your DVD player, increase the volume on your surround sound, and more. Each emitter features two heads so you can cut down the amount of wiring needed.

CRIMP TOOL EZ RJ45

The new EZ-RJPRO® crimp tool is designed for the professional installer providing a ratcheted, high leverage, ultra stable platform for consistent, repeatable terminations. This heavy duty tool is the perfect solution when working with high performance, larger OD cables that are tougher to terminate due to larger wire gauges, thicker, harder insulation on the conductors and pair separating splines. Compatible with all EZ-RJ45® and EZ-RJ12/11 connectors as well as all standard modular plugs, except AMP.

CLRLSPROTOOL

REPLACEMENT BLADES 4 PIECE

Replacement blade for the EZ RJ45 crimp tool.

CLRLSREPBLD

RJ45 CAT5E CONNECTOR 50 PIECE

Thru holes allow wire pairs to be inserted thru front of connector for faster terminations. Works with solid or stranded wire. Simple one piece design...no bars or liners. FCC compliant, UL rated. Use in category 3, 5, 5E compliant data networks. RoHS compliant. EZ to verify wire sequence.

CLRLSRJ45505E

CAT6 STRAIN RELIEF CONNECTOR 50 PIECE, BLUE

The primary strain relief of the plug locks the snag proof strain relief in place so they will not pull off, creating one, integral assembly. Once crimped, this design allows the plug's primary strain relief to relax slightly, preventing the cable pairs from being over compressed. This decrease in stress contributes to achieving peak performance.

CLRLSSRB50

PRODUCT CATALOG

RJ45 CAT6 CONNECTOR 100 PIECE

CLRLSRJ451006

Reducing the distance between the wire twists and contacts improves performance! Reduces scrap, no wasted crimps. More reliable, higher performance.

RJ45 CAT5E CONNECTOR 100 PIECE

CLRLSRJ451005E

The EZ-RJ45® connector simplifies twisted pair terminations by allowing the wires to be inserted through the connector and out the front. This allows the technician to easily verify the proper wiring order.

RJ45 CAT5E STRAIN RELIEF CONNECTOR 50 PIECE

CLRLSRJ45SR50

Once crimped, this design allows the plug's primary strain relief to relax slightly, preventing the cable pairs from being over compressed. This decrease in stress contributes to achieving peak performance. The tab on the strain relief is designed to extend over the plug's locking tab, making it snag proof when administering patch cords.

PRODUCT CATALOG

RJ45 CAT5E STRAIN RELIEF CONNECTOR 100 PIECE

CLRLSRJ45SR100

The innovative snag proof strain relief is designed specifically to be crimped with the EZ-RJ45® plugs. The primary strain relief of the plug locks the snag proof strain relief in place so they will not pull off, creating one integral assembly.

RJ45 CAT5E STRAIN RELIEF CONNECTOR 50 PIECE CLEAR

CLRLSRJ45SRCLR50

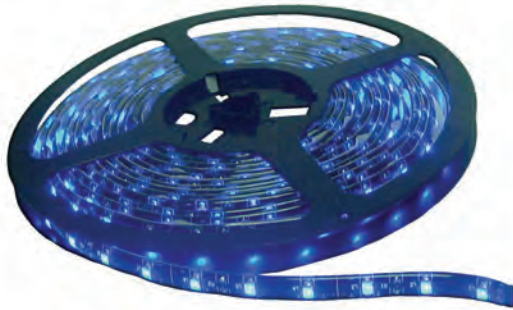

No more snags or hang ups, causing tangled messes. Prolongs patch cord life. Maintain bend radiuses required for standards compliance. Terminations have a professional finished look. Easier to unlock the connector when unplugging from jack/port.

RJ45 CAT6 CONNECTOR 50 PIECE

CLRLSRJ45506

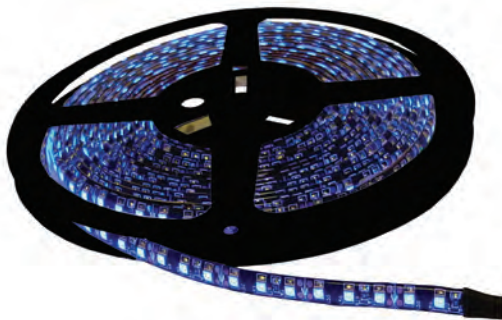

The new EZ-RJ45 Cat 6 connector simplifies twisted pair terminations by allowing the wires to be inserted through the connector and out the front. This allows the technician to easily verify the proper wiring order. Electrical performance of the termination is optimized by pulling the connector down over the cable jacket and seating it tightly in the rear of the connector.

CLR92300BU300

LED STRIP 300 1-CHIP 5 METER BLUE

This blue LED strip lighting provides a stunning visual effect. With 60 LED's per meter, you will enjoy clear, bright blue lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, pools, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 5A power supply, sold separately.

CLR92300BU600

LED STRIP 600 1-CHIP 5 METER BLUE

This blue LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 600 LED's (120 per meter), you will enjoy clear, bright blue lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut with ordinary scissors between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300BUHG

LED STRIP HIGH GRADE 300 3-CHIP 5 METER BLUE

This high grade blue LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 300 3-chip LED's you will enjoy clear, bright blue lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut with ordinary scissors between every 3 LEDs to create the perfect size and length for your application. This High Grade LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300GN300

LED STRIP 300 1-CHIP 5 METER GREEN

This green LED strip lighting provides a stunning visual effect. With 60 LED's per meter, you will enjoy clear, bright green lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, pools, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 5A power supply, sold separately.

CLR92300GN600

LED STRIP 600 1-CHIP 5 METER GREEN

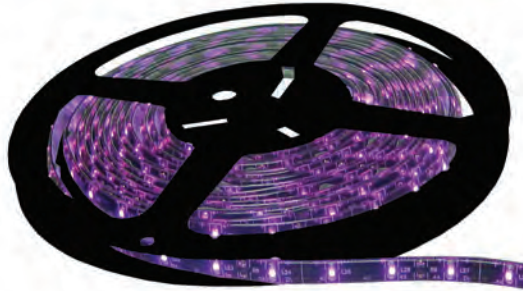

This green LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 600 LED's (120 per meter), you will enjoy clear, bright green lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut with ordinary scissors between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300GNHG

LED STRIP HIGH GRADE 300 3-CHIP 5 METER GREEN

This high grade green LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 300 3-chip LED's you will enjoy clear, bright green lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut with ordinary scissors between every 3 LEDs to create the perfect size and length for your application. The strip lighting emits little or no heat, and features a solid-state, high shock / vibration resistant design that is built to last. This High Grade LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300PK300

LED STRIP 300 1-CHIP 5 METER PINK

This pink LED strip lighting provides a stunning visual effect. With 60 LED's per meter, you will enjoy clear, bright pink lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, pools, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 5A power supply, sold separately.

CLR92300RD300

LED STRIP 300 1-CHIP 5 METER RED

This red LED strip lighting provides a stunning visual effect. With 60 LED's per meter, you will enjoy clear, bright blue lighting inside or outside your home. The 2-Wire LED Lighting strips are also available in White and Blue; or for even greater flexibility, an RGB 4-Wire Color Changing lighting strip is available. The strips are ideal for home theaters, entertainment systems, rack lighting, pools, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 5A power supply, sold separately.

CLR92300RD600

LED STRIP 600 1-CHIP 5 METER RED

This red LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 600 LED's (120 per meter), you will enjoy clear, bright red lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut with ordinary scissors between every 3 LEDs to create the perfect size and length for your application. This LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300RDHG

LED STRIP HIGH GRADE 300 3-CHIP 5 METER RED

This high grade red LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 300 3-chip LED's you will enjoy clear, bright red lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. This High Grade LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300RGBR

LED STRIP 150 3-CHIP 5 METER MULTICOLOR ON WHITE STRIP

Creates stunning visual effects with little or no heat, solid state, high shock/vibration resistant, very bright and energy efficient. LED waterproof strip lighting provides the unique ability to select each independent color of red, green or blue or combinations to create 256 shade levels of each color (16 million shades) of lighting in a small thin form factor. The flexible silicon PCB can be bent to a maximum radius of 2cm.

CLR92300WH300

LED STRIP 300 1-CHIP 5 METER COOL WHITE

This white LED strip lighting provides a stunning visual effect. With 60 LED's per meter, you will enjoy clear, bright blue lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, pools, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. The flexible silicon PCB construction can be bent to a maximum radius of 2cm and can even be cut between every 3 LEDs to create the perfect size and length for your application. The strip lighting emits little or no heat, and features a solid-state, high shock / vibration resistant design that is built to last. This LED light strip requires a 12V DC, 5A power supply, sold separately.

LED STRIP 600 1-CHIP 5 METER COOL WHITE

This white LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 600 LED's (120 per meter), you will enjoy clear, bright white lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. This LED light strip requires a 12V DC, 1.5A power supply, sold separately.

CLR92300WH600

LED STRIP HIGH GRADE 300 3-CHIP 5 METER WHITE

This high grade white LED waterproof strip lighting provides a stunning visual effect wherever it is used. With 300 3-chip LED's you will enjoy clear, bright white lighting inside or outside your home. The strips are ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. PRODUCT CATALOG

CLR45608

POWER SUPPLY 12VDC 5 AMP REGULATED

The 45-608 SwitchMode Power Supply provides 12-Volt DC power at 5 Amps. It has been specifically designed to work with the 4-Wire Multi Color RGD LED Strip Light and 2-Wire LED Strip Light (available in Red, White and Blue). The power supply connects with a Female 2.1mm Coax Barrel Connector to Screw Terminal Adapter, sold separately; the screw terminals can then be connected to one of the LED strip lights. For added control of your LED Light Strips, consider using the RGB LED Light Strip Manual Control Module or the LED Light Strip IR Receiver and Remote Control.

CLR45608HG

POWER SUPPLY 12VDC 6 AMP HG MODELS ONLY

Operates on 110-220 Vac. Soft-start current can reduce the AC input impact to 12Vdc loads. CE, FCC approved, RohS Compliant. Over voltage protection: 120%min. Over current protection: 120%min. Output voltage: 12Vdc. Load regulation: $\pm 5\%$. Input voltage: 110-220Vac. Short-circuit protection: Automatic recovery. Output termination: 2.1mm Male Coax plug, positive center, 6 ft. cord.

CLR45609HG

POWER SUPPLY 12VDC 29 AMP WITH 3 PLUG OUTPUTS

Operates on 110-220 Vac. Soft-start current can reduce the AC input impact to 12Vdc loads. CE, FCC approved, RohS Compliant. Over voltage protection: 120%min. Over current protection: 120%min. Output voltage: 12Vdc. Load regulation: $\pm 5\%$. Input voltage: 110-220Vac. Short-circuit protection: Automatic recovery. Output termination: 2.1mm Male Coax plug, positive center, 6 ft. cord.

CLR92322

CONNECTOR CLAMP 2 WIRE DIRECT

The RGB LED Strip Coupler is a small but essential piece in a multi-color LED lighting setup. It enables you to connect multiple strands of 2 Wire LED Light Strips for longer runs and custom installation. Slim and discreet, this LED coupler helps you get more out of your full color lighting setup.

CLR92332

CONNECTOR CLAMP RGB FLEXIBLE STRIP

The RGB Flexible Strip Connector Clamp is a small but essential piece in a multi-color LED lighting setup. It enables an RGB color controller to send commands to the RGB strip light, allowing it change and maintain colors and display modes, all through the safe and stable connection provided by this connector. Slim and discreet, this 12V LED connector helps you get more out of your full color lighting setup.

CLR45609HGUL

POWER SUPPLY 12V 29 AMP SCREW TERMINAL OUTPUTS

AC input range selectable by switch. Protections: Short circuit / Overload / Over Voltage / Over Temperature. Forced Air Cooling by built-in DC fan. Withstands 300vac surge input for 5 second. Built-in cooling FAN ON-OFF control. Built-in constant current limiting circuit. 100% full load burn-in test. LED indicator for power on. Fixed switching frequency at 90KHz. Low cost, high reliability.

CLR92333

CONNECTOR CLAMP RGB DIRECT

The RGB Direct Connector Clamp is a small but essential piece in a multi-color LED lighting setup. It enables an RGB color controller to send commands to the 4 Wire LED Light Strips, allowing it change and maintain colors and display modes, all through the safe and stable connection provided by this connector. Slim and discreet, this 12V LED connector helps you get more out of your full color lighting setup.

CLR92325

STRIP LED 2 WIRE TO POWER

The LED Strip to Power Connector is a small but essential piece in a multi-color LED lighting setup. It enables you to connect your 2 Wire LED Light Strips to a power source with its eight inch wire connector. Slim and discreet, this LED Power Connector helps you get more out of your full color lighting setup.

CLR92320

COUPLER FLEXIBLE 4 1/2" 2 WIRE

The RGB Flexible Strip Coupler is a small but essential piece in a multi-color LED lighting setup. It enables you to connect multiple strands of 2 Wire LED Light Strips for longer runs and custom installation. Slim and discreet, this LED coupler helps you get more out of your full color lighting setup.

CLR92321

COUPLER RGB FLEXIBLE 4 WIRE

The RGB Flexible Strip Coupler is a small but essential piece in a multi-color LED lighting setup. It enables you to connect multiple strands of 4 Wire LED Light Strips for longer runs and custom installation. Slim and discreet, this 12V LED coupler helps you get more out of your full color lighting setup.

CONTROLLER MANUAL FOR RGB LED STRIP

The 92-340 Manual RGB LED Lighting Controller has been specifically designed to work with the 4-Wire Multi Color RGD LED Strip Light. The controller provides manual independent control over individual or combined RGB LED channels that can provide many different lighting effects. This LED lighting control used in combination with the RGB LED Lighting strips, is ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars. This product requires a 12V DC 5A power supply, sold separately.

CLR92341

CONTROLLER RGB MODULE WITH IR REMOTE 72W

The 92-341 Wireless Infrared IR Remote Control and RGB LED Lighting Controller has been specifically designed to work with the 4-Wire Multi Color RGD LED Strip Light. The controller provides wireless, independent control over individual or combined RGB LED channels that can provide many different lighting effects. This LED lighting control used in combination with the RGB LED Lighting strips, is ideal for home theaters, entertainment systems, rack lighting, water fountains, pools, spas, landscaping and other outdoor accent lighting. Not to mention downlighting, uplighting, lighting art, under cabinet lighting, crown molding, limousines, RV's, boats and cars.

SWITCH LED LIGHTING DIMMER

The 92-342 12V Inline LED Dimmer Switch allows you to dim the 92-300 Series of LED lighting products! Simply plug this attractive and easy-to-use LED dimmer switch into a 12V adapter at one end and your lighting source at the other. A Female 2.1mm Coax Barrel Connector to Screw Terminal Adapter is included, allowing you to turn the barrel connection output of the controller into screw terminals, ideal for hardwiring directly to your lights. Whether it is accent lighting or cabinet lighting, this controller can be used as an on/off switch or as dimmer, which is achieved with a smooth turn of the rotary dial on the sturdy white plastic housing. This switch features full on and off capabilities, along with everything in between, making it a flexible and useful accessory.
